

Bill Shorten

NDIS is a failure I have had to fight over
18 months and endless drs reports to qualify
For NDIS. My Health conditions were ignored for
Years as ever appointment for GP or Specialist even
Mental health was taken up with endless reports.

I have had 71 surgeries and have many
Many diseases and disorders.
I'm now only been on NDIS 14 months
I have barely had services and everything
Is so overpriced if you mention NDIS
Let alone many providers and suppliers
Now will now NOT deal with NDIS participants
at all as they complain can take months to finally
get paid.

I'm in regional north east Victoria
Services even support coordinators are
Very limited here.

I'm so stressed all the time due to NDIS
I'm constantly told that my carer or family, friends
even community services should be help me
I DO NOT have anyone Im totally alone 24/7.
NDIS does not get this at all.
Some very disabled people have no one
No help no family nothing!

Now I have only just found out (and having to go through
Privacy act) to find out what I was approved on NDIS FOR!!!
I have endless letter's saying Im approved but
Never tell you NOT ALL OF YOUR BODY is covered
Only 1 disorder.
So I can only use NDIS based only on
One disorder out of so many disorder's.
I'm unsure what do I do with the rest of
My disabilities and how I work out how
to now use a plan that only covers a part
Of me.
This is outrageous.
I'm 8th generation Australian and treated
Very unfairly to the point of discrimination.
Just over NDIS.
This so called plan is not helping the people
Who need it all it's doing is paying people
outrages amounts of money.
le support workers to support coordinators
Need no qualifications at all to do a job
they are paid \$67 per hr weekday rate
\$89 a weekend public holidays can be over \$140
Per hr.
Coordinators can be up to \$100 per hr
to what book a cleaner or physio appointment
for their clients.
This is such a waste of money amounts
Should be more inline with real jobs.

As for calling in to NDIS customer service
